1. Based on a global survey of 1,786 doctors (dentists and orthodontists who use clear aligners) by IQVIA in NA, EMEA, LATAM, and APAC. Data on File at Align Technology, as of June 30, 2022.
2. Compared to Invisalign aligners previously made from single-layer (EX30) material.
3. Durability is defined as the ability to withstand cracking and breakage of the retainer. Strength is verified by retention force, the ability of the retainer to provide sufficient corrective mechanical loads to retain teeth in their defined positions. Viverra retainers are not cleared for the treatment of bruxism. Data on File at Align Technology, as of May 08, 2023.
4. Based on significantly lower Plaque Index (PI), probing depth (PD), and Bleeding on Probing (BOP) of the upper right first molar and upper left central incisors at initial, 3, 6, and 12 months as well as full month plaque score (FMPS) and full mouth bleeding score (FMBS) score at initial and 12 months and better higher compliance with oral hygiene on 50 teenager patients (age 10-18, (25 Invisalign treatment, 25 fixed appliances). Data on File at Align Technology, as of October 16, 2025. Abbate GM, et al. Periodontal health in teenagers treated with removable aligners and fixed orthodontic appliances. J Orofac Orthop 2015;76:240-50

GET A HEALTHY, LONG LASTING SMILE WITH INVISALIGN® CLEAR ALIGNERS.

WHY CHOOSE INVISALIGN® TREATMENT?

Not all clear aligners are created equally. Here's why:

THE BRAND DOCTORS TRUST.

Invisalign clear aligners is the **#1 doctor recommended brand** treating million of patients worldwide.¹

COMFORTABLE TREATMENT, PREDICTABLE RESULTS.

Invisalign clear aligners straighten teeth more **comfortably**.² Plus, more **predictable** tooth movement thanks to accurate treatment planning and our patented SmartTrack™ material.²

FOR EVERY SMILE, AT ANY AGE.

Whether your case is **simple** or **complex**, Invisalign treatment is designed for everyone and helps you achieve a smile you love.

“MY INVISALIGN TREATMENT WAS FINISHED IN JUST NINE MONTHS! NOW I FEEL LIKE THERE’S NOTHING THAT CAN HOLD ME BACK ANYMORE.”

Laura, real Invisalign patient.

WHY DO STRAIGHTER TEETH MATTER?

With Invisalign® clear aligners, you're getting more than a brand-new smile you love. Here's how straighter teeth can benefit your oral health:

1

GUM HEALTH AND ORAL HEALTH DISEASE PREVENTION.

Invisalign aligners straighten your teeth so they are easier to clean, helping reduce plaque, cavities and gum disease.⁴

2

PLAQUE AND CAVITY RISK REDUCTION.

Straighter teeth that are easier to clean also keep your oral health on track, helping reduce plaque and cavities.⁴

3

IMPROVED BITE.

Invisalign aligners also help your teeth fit together better, reducing wear and helping protect your enamel.

4

FEWER COSTLY DENTAL PROCEDURES.

Invisalign clear aligners help save on costly restorative work tomorrow by straightening your teeth today.

HOW INVISALIGN® TREATMENT WORKS.

Your smile is unique, and your treatment journey will be too, with a personalised plan to transform your individual smile.

THE CONSULTATION.

Your doctor will give you an **iTero™ scan** and develop a **custom treatment plan** to transform your unique smile. At this point, they can tell you the treatment duration and cost.

THE TREATMENT.

You will wear the aligners for **22 hours a day**, changing them every **1-2 weeks**. With **My Invisalign™ App**, you can track your weekly updates, receive reminders, upload pictures and check in with the doctor remotely.

THE RESULTS.

You can now smile with confidence, while keeping your teeth in place with **Vivera™ retainers**, designed to be more durable and withstand teeth grinding.³
